2016 Haitian Entrants Support

Cal OES State Operations Center (SOC) is partially activated in support of this event.

Haitian Entrants, San Ysidro, San Diego County

- The shelter counts reported on 10/03/16 were:
 - Christ Ministry Center – 22 women and families (moving from the Best Western Hotel)
 - Transitional Housing – 47 persons (all single male adults)

Non Governmental Organizations

- Alliance San Diego will continue to coordinate the broader response, which includes a humanitarian response, a policy response, and a communications response.
- Alliance San Diego will take the lead on the policy response, working with national partners to address the policy gaps, such as the separation of families, possible indefinite detention, and other policy concerns.
- The women and families that are staying at the Best Western Hotel will be transferred to the church on 10/03/16.
- 47 men will be settling in San Diego and will be receiving their cash assistance on 10/03/16 from Catholic Charities.
- The American Red Cross (ARC) has picked up the cots at the El Cajon Armory 10/03/16.

State agencies currently supporting the sheltering operations are as follows:

- Cal Volunteers:
 - CV and LDS volunteers cleaned the El Cajon Armory on 10/02/16 and finished on 10/03/16.
 - CV and the California AmeriCorps Disaster Team left from the armory at 1200 hours.
- California National Guard (CNG):
 - Per CV, the armory supervisor signed off on the armory demobilization on 10/03/16 at 1147 hours.
 - Cal OES Mission for the CNG 26724 has been updated to demobilize National City Armory from the sheltering operations.
- San Diego County
 - The eligibility team will be on standby to assist with any new requests

WEATHER OF CONCERN

Weather of Concern

- Weak to moderate Santa Ana winds will produce significant drying and warming Thursday through Saturday, likely creating critical fire weather conditions. A Fire Weather Watch has been issued for portions of Southern California.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

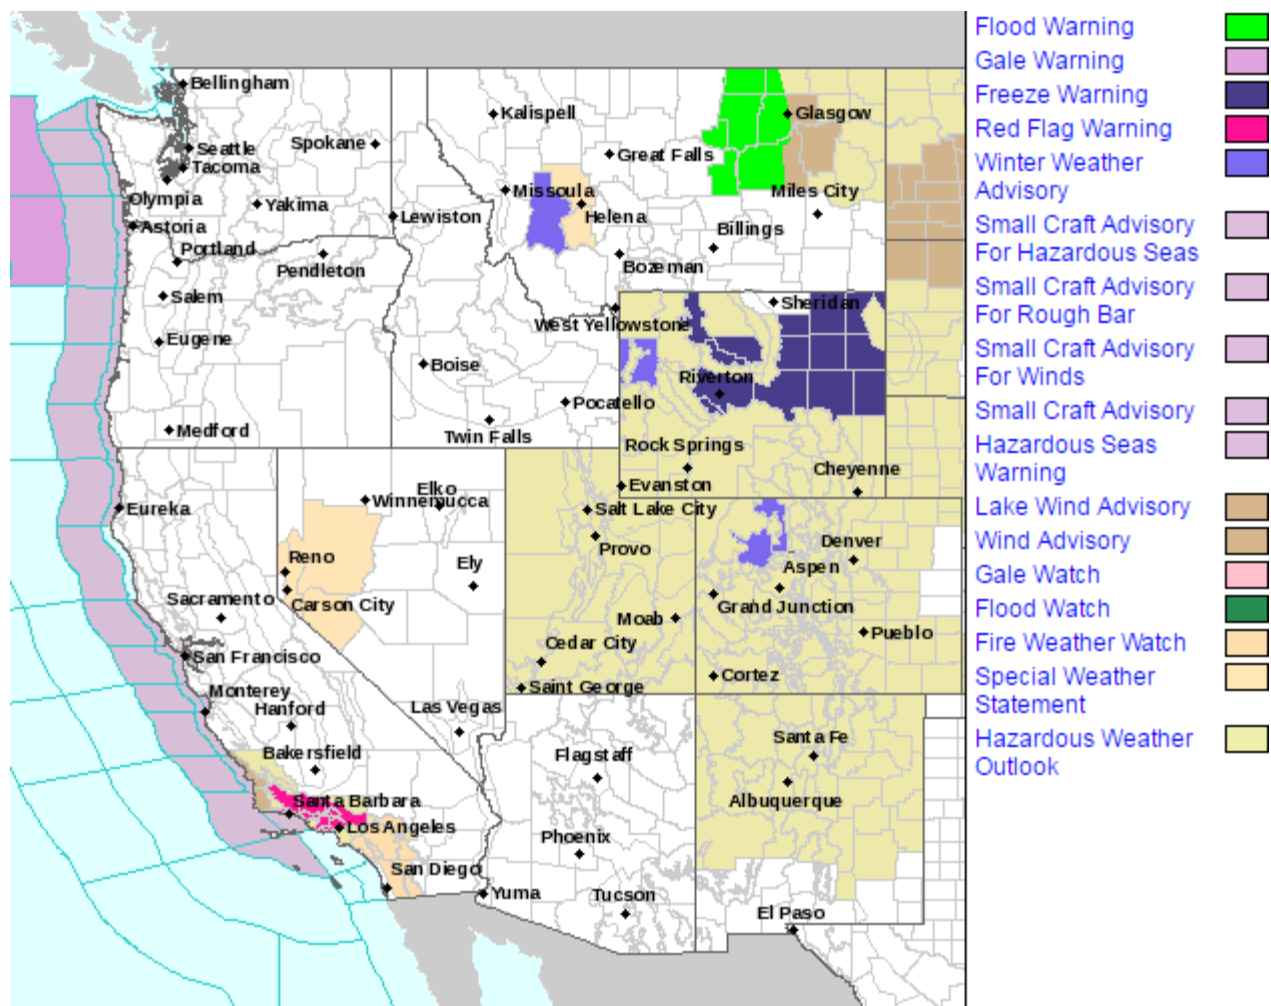

The southern edge of a weather system moving through the Pacific Northwest will sweep across the northern portion of the Geographic Area today with some cloudiness and a few possible showers. The rest of the region will see some cloudiness on the mountains and sunny elsewhere. A high pressure ridge will start to take over our weather pattern tonight, but it won't become all that strong. Some northerly winds will develop during the day Thursday for the Sacramento Valley and its surrounding foothills, but speeds will be quite modest with gusts mostly around 25 mph, perhaps locally around 30 mph for a few hours. No High Risk conditions are expected. Dry, warm conditions will continue Friday through the weekend, although a low pressure trough will approach the coast later Sunday. The warmest days will be Friday and Saturday with afternoon highs in the inland areas 85-90, or from 5-10 degrees above seasonal normals. A cooling trend will start again Sunday in response to the approaching trough that will move ashore Monday but it looks like a dry system. A stronger trough will approach Tuesday with another round of more widespread precipitation for at least the northern two-thirds of the region expected by later next Wednesday. Temperatures will once again drop to below normal values with that system. Some gusty southerly winds are likely to develop early next week as well.

SOUTHERN CALIFORNIA

A trough passing to our north will generate gusty offshore winds with hot temperatures and low relative humidity (RH) later this week into the weekend. Early this morning, some wind gusts to 35 mph were already occurring in northern Los Angeles County along the I-5 Corridor and in the western Antelope Valley. Expect these winds to increase to 20-30 mph with gusts to 50 mph this afternoon. Gusty winds will expand to include much of the Kern County Mountains, "Canyon Country" and the Santa Clarita Valley by this evening. Similar conditions can be expected in Santa Barbara County. Once the marine layer dissipates later this morning, expect sunny and warmer conditions for the entire area. Highs will be 3-5 degrees warmer with afternoon temperatures in the 70s along the coast to the 80s in the valleys and lower foothills. Tonight, winds will remain gusty overnight and RH may drop through the night, possibly reaching the 10-15% range over many areas by daybreak Thursday. Expect highs close to 90 in some off the valleys and lower foothills Thursday with minimum RH in the single digits over Southern California. Winds are expected to turn northeast Thursday night into Friday morning, which will shift the area with the strongest winds into Ventura County and the Santa Ana Canyon southward into portions of San Diego County. Expect winds of 15-25 mph with gusts to 40 mph in these areas late Thursday night through the day Friday. Northeast winds of 10-20 mph will also be possible along the central coast Friday afternoon. Temperatures will be much warmer Friday with highs in the 90s for many coastal and valley areas. Minimum RH will be in the single digits for most areas below 3,000 feet Friday and Saturday with poor recovery expected Friday night. Winds will decrease Friday evening, but light offshore flow will maintain hot temperatures into Saturday. A return of onshore flow will bring a slow cooling trend beginning Sunday. Most areas will see temperatures return to near normal with higher RH by next Tuesday.
